The Hunt...

No matter how they try to flee, the virgins who enter the twisting tunnels of the Guardians are destined to be caught. Actually, most don't try too hard. The stories of warriors who can take on Cat form, of lovers who can make a woman scream with pleasure, are just too enticing.

But I'm no virgin, and I've joined the Hunt with my own agenda. After I steal the moonstone necklace I've been sent for, I have no intention of becoming some Cat's tasty morsel. But you think someone would have warned me that these have some deliciously kinky habits, and the dark hunter on my trail isn't about to let impudent thievery go without punishment of the most exquisite kind...

Sherill says

The saga continues deep within the mysterious tunnels of the Guardian's Temple. Venturing further towards their destination, Jafar realizes that someone or something is hot on their trail. As Jafar's feelings intensify for Miu he is compelled to protect her. Miu is still trying to deduce what or who Jafar is as her feelings for him escalate. The author's description of the interactions between Jafar and Miu is dynamic. This book is jam-packed with banter, life threatening incidents and seduction at its best. I highly recommend this book and the series as it is both entertaining and will hold your interest till the last word. DISCOVER HOW JAFAR MEETS LIERR-THE MASTER!!! {I was given this book for an honest review}.

I received an ARC of this story in exchange for an honest review

While Miu and Jafar are traveling in the tunnels, she is still trying to figure out if he's another spy or what. While he helps her get through the temple, she can't help the attraction she's feeling even though he's very dominant, not something she normally goes for. When she confirms that he's not a thief hired by the Master that is blackmailing her, she traps him and continues on to her task, still unsure of what to make of him. This story gets hotter and hotter between Miu and Jafar. While it's learned what motivates Miu, Jafar gets sidestepped. I can't wait to read what happens next.

Pursuit, part two of The Hunt by Anne Marsh continues to capture my interests. In this part, Jafar continues to keep the fact that he is actually a guardian from Mui. He is determined to keep her from harms way. Mui contacts her master and is still attempting to find the necklace to save her sister.

Through a series of plot twists and turns, Mui constantly finds herself in the midst of danger. She is determined to accomplish her mission and retrieve the necklace for her master. Will she make it to the tomb?
