Scratch (Devil's Boneyard MC 2) Harley Wylde

Clarity -- I've been on my own since I was sixteen, and I've fought tooth and nail to make a life for myself and the son I never planned to have. Caleb is my entire world, despite the circumstances of his birth. Being homeless a second time certainly hadn't been in my life plans, so when a gruff yet sexy biker offers a bit of help, how can I possibly say no? Doesn't hurt that the older man is easy on the eyes, and he's so good with Caleb. I'd thought I wasn't able to trust anyone ever again, but looking into his eyes, I know deep down he'd never hurt us. It just never occurred to me that I'd fall completely in love with him.

Scratch -- The young woman and kid I find sleeping outside my club's chop shop make me feel things I shouldn't. Hell, she's younger than my damn daughter, but it's obvious she's been to hell and back, and she's still fighting. There's fire in her soul, but the gentle way she treats her son leaves me wanting things I shouldn't. Like a new chance at a family. What the hell would she want with a man thirty years older than her? When I took her home with me, I never counted on wanting to keep her. I'll slay her demons, bury the monsters from her past, and then I'll do the one thing I thought I'd never do... claim an old lady, then make her my wife.

Clarity is just trying to survive. She and her little boy, Caleb. She just needs a quiet place for the night to sleep a bit and she thinks she has found a perfect place. Scratch is wondering why there is a woman and her child sleeping in the doorway of his repair shop. When he sees her, he knows she needs help and he isn't about to leave a mother out in the cold. He has a daughter that his about her age. Clarity is a kitten with claws and will do what she needs to do to protect her son.

I'm glad that Scratch found someone. He seemed to lonely when Darian left with Bull. Plus he missed out on so much with Darian. Clarity's life was so messed up. I couldn't believe what Shade found out about her. And that little boy Caleb. I never can understand people and how they can treat children that way. Thank goodness for the Devil's Boneyard MC and Scratch. They set everything to rights and then some. These two were so meant for one another.

This book is about a very young girl that found herself homeless with a son. Scratch finds them in his garage and gives Clarity a safe place to stay. Their relationships have a lot of problems with Scratch being older and Clarity being as old as his daughter. I think that their love can overcome these obstacles. He finally claims this young woman wants to start a family. Great novel

Awesome book

Deals with realistic issues and I love the characters. Also I'm a sucker for happy endings. Can't wait for the next book. The past books were written very well and I can't wait to see who's getting together next.

Scratch is book two in the devil's bone yard MC series. This story is short, fast paced and a nice read. I devoured this story in one sitting and was satisfied throughout. I have to admit, I liked the previous story in this series but I liked this one much more. My heart hurt for Clarity because of everything she had been through. Her love for her son was clear to see. Despite being homeless, she was determined to protect her son. She would go without eating for him. Overall, she was a good mother. I liked Scratch. He was a little gruff at first but he was determined to help Clarity and Caleb. I liked that he saw it as paying it forward as his daughter had once been in need of help and the Dixie reapers had helped her.

The chemistry between Scratch/Damon and Clarity was clear to see. It wasn't instant but it grew as the story progressed. I liked that Clarity took the chance and trusted Scratch despite what happened to her last time she accepted help.

I liked that Clarity finally got answers about her parents. I really wish that the outcome were a little different. Why? Because I would have liked seeing Clarity meet them (if it had been possible). That being said, I liked that she got peace over her worry about Caleb. I liked the ending to this story and the three months later part was sweet.

The storyline for this book is easy to follow and an entertaining read. I cannot wait for more books in this series.

I just couldn't take this story seriously. OTT.

Heroine comes off as very desperate and needy and clingy. Knows the Hero for not even a day and wants to get into his pants, very badly. Because Hero is so sweet and kind and caring. Oh well.

Hero wasn't badass at all. Who decides to claim a woman with a child (after one day being together) for the rest of their lives?

I know it's fiction, but even there I need some semblance of reality. Otherwise I can't take this seriously.

But that's just how I see it.
