## **From Reader Review The Witcher: Curse of Crows #1 for online ebook**

### **Nico says**

The Witcher comics have always had excellent art and storytelling. The use of colors is fantastic, the inking is well done.

Unlike Fox Children and House of Glass, Curse of Crows is best read after having played the Witcher 3 and read The Last Wish. The other two comic series are fine as stand alones, but Curse of Crows expects you to have at least a basic understanding of the Witcher universe.

All in all, it's a quick and enjoyable read.

#### **A Good Read**

So the story is pretty simplistic and easy to follow. It's written by some of the story creators from "The Witcher 3: Wild Hunt" game. If this series turns out anything like the game, this will be great.

### **Monsour says**

If you're one of those who played the games and you're ok with Ciri being a Witcheress, then this is the book for you.

The story is really simple and easy to dive into, it's basically a homage to the first (and the best) scene in the first book the "Last Wish".
