The Legend Continues...

The legend, they say, is whispered within the winds along the magnificent Preda Mountain Range, the words and deeds never to be forgotten of the Time of the Nuxvenom, a time when the Sordarins crushed the impending threat, the dreaded Asmeodai, and once more Scarladin was safe. The mighty Sordarins, rulers of the sky! No, the Sordarins have slept well over the years secure in their knowledge the Great One watches over them, knowing the legends holds a mighty warrior will emerge if threatened again, born with a destiny only to defend their world. But subtle changes have emerged. Little by little fear beings to resurface that their world, their very existence is once again threaten. They look to the skies anxiously awaiting their warrior; questioning perchance if the Great One has forgotten them. I know this how? For I am the one born to defend their world. I, Kela Calledwdele, was born a Euchoun. I am their warrior.

So starts this epic fantasy...Whispers of a Legend saga. Kela Calledwdele was born with a destiny, a Euchoun with only one purpose in life...to protect. Torn between two worlds, Kela soon discovers she is the hope of both. Now she must find the courage to face the destiny fate has dictated to her.

Kela has always known what path in life she would follow. She was born a Euchoun. Half Witheleghean, a passive peaceful race where magic runs freely and the other half, Sordarin, a valiant warrior race of hawkmen who rule the sky, she knows well her parents gave the ultimate sacrifice to give her a chance to live. Yet, in so doing, they have left Kela unprepared to face the dangers that await her. Her instincts are to protect and in this she does, but in so doing it leads her into a world where she knows not whom to trust. In time her power matures and grows stronger when she bonds with a Sordarin warrior, Cono. She learns well why she holds the power. An evil as no other before, Asmeodai, has emerged but all is not what it seems as a dark cloak encompasses her family. Betrayal, distrust, treachery leaves Kela alone. She is torn by her desire for Cono and the purpose, the path, she has been given to follow. And when another emerges within her world, one who seemingly wants only to help her along her path, she is pulled further away from her Sordarin.

Having proven her ability during the Payelaga Desert battle, she believes herself ready to follow her destiny beside her warrior. Fate has another path for Kela. When she discovers all she has long believed is not as it seems, the betrayal leaves Kela torn by her desire for Cono and the path she has been given to follow.

The Path Now Turned is the second installment of the Whispers of a Legend saga. Follow Kela's battle to embrace her destiny. Whispers of a Legend follows Kela along this conflicting path, where as a young woman unsure of her ability and her confidence in facing the challenges before her to where she emerges as a strong leader who learns to lean upon her own strength, to stand not behind, but side by side with her warrior.
