Along Came Sabertooth

????? ??? ?????? says

since i didn't start to read wolverine yet the flashback was quite new to me

i know about maverick already from x-men animated series and ofc i didn't know sabertooth's real name before now

its quite a good story i like it

i like the professionalism of the hand to recruit someone who can track down wolverine

and mojo is back i realized that i like the presence of mojo more then that of longshot or dazzler who are not really exciting for me even so i like longshot's stupid power its creative but he needed more weapons to his arsenal

and it looks like gambit's secrets or origin will be revealed soon
